# SITUATION SUMMARY

## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

### Cal OES COASTAL REGION

- See Fire Activity Slides.

### Cal OES INLAND REGION

- See Fire Activity Slides.

### Cal OES SOUTHERN REGION

#### Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

Per the Cal OES Southern Region AREP on 06/14/18 at 0846 hours:

- CDFA and the U.S. Department of Agriculture (USDA) have scaled up their response to this incident, as more cases have been detected.
- CDFA confirmed there are no commercial premises currently involved and there is no public health risk due to this virus.
- Incident Management Teams (IMTs) transitioned on 06/16/18. The IMT Red Team started on 06/17/18.

#### **Activations**

- San Bernardino Operational Area (OA) EOC is activated to Level 3 (lowest level) and will continue to monitor the incident.

#### **Deployments**

- One (1) Cal OES Southern Region Senior ESC deployed to ICP as an AREP. Operational period of 0700-1900 hours.

# FIRE ACTIVITY

Cal OES Fire Preparedness Levels		
National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 1	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 1	Multi-Agency Coordination System MACS Mode: 1

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

## COASTAL REGION

### Beaver, Vegetation Fire, San Benito County

Location: Coalinga Hwy x Airline Hwy, East of King City

Jurisdiction: State DPA, SRA

Start Date/Time: 06/12/18 at 1504 hours

Per Cal OES Duty Officers and ICS-209 as of 06/17/18 at 0747 hours:

- 215 acres grass, 86% contained
- Expected Containment: 06/18/18
- Minimal fire activity observed

## INLAND REGION

### Tumbleweed, Vegetation Fire, Lassen County (Final)

Location: Hwy 395 x 1 mile SE of Litchfield, East of Susanville

Jurisdiction: Federal DPA, FRA/SRA, Northern California District BLM

Start Date/Time: 06/14/18, 1731 hours

Per Cal OES Duty Officers and ICS-209 as of 06/17/18 at 0747 hours:

- 674 acres grass and brush, 90% contained
- Expected Containment: 06/17/18
- Firefighters continue line improvement, mop up and patrol

# **FIRE ACTIVITY**

## **INLAND REGION (Continued)**

### **Planada, Vegetation Fire, Merced County**

Location: Doug Road and Bonner Road, Community of Planada

Jurisdiction: State DPA, SRA, Mariposa-Madera-Merced County

Start Date/Time: 06/15/18, 1030 hours

Per Cal OES Duty Officers and ICS-209 as of [06/17/18 at 0747 hours](#):

- 3,200 acres grass, 85% contained
- Expected Containment: [06/18/18](#)
- Firefighters continue line improvement, mop up and patrol

### **Boyer, Vegetation Fire, Mariposa County**

Location: Boyer Road and Fox Hollow Ln, Community of Bootjack

Jurisdiction: State DPA, SRA, Mariposa-Madera-Merced County

Per Cal OES Duty Officers as of [06/17/18 at 0747 hours](#):

- 53 acres grass and oak woodland, 75% contained ([Acreage reduced due to accurate mapping](#))
- [Continue to improve, reinforce and secure control lines](#)

## **SOUTHERN REGION**

### **Euclid, Vegetation Fire, Riverside County (Final)**

Location: Euclid Ave. x Hwy 71, 6 miles south of Chino

Jurisdiction: State DPA, SRA, Riverside Unit

Start Date/Time: 06/12/18 at 1430 hours

Per Cal OES Duty Officers and ICS-209 as of [06/17/18 at 0747 hours](#):

- 154 acres grass and brush, [90% contained](#)

# MAJOR ROAD / HIGHWAY / BRIDGE CLOSURES

## 911 Outages/Remote/Community Isolations:

### SOUTHERN REGION

#### CHP-Inland Communications Center , Alternate Answer, San Bernardino and Riverside Counties

On 06/16/18 at 2007 hours, the California State Warning Center (CSWC) was notified by the CA 9-1-1 Branch that the CHP Inland Communications Center was in alternate answer status, with their calls being sent to CHP Indio Communications Center and CHP Barstow Communications Center.

- The outage began at approximately 1530 hours on 06/16/18
- Jurisdictions Affected: San Bernardino and Riverside Counties
- Wireless 9-1-1 Calls Impacted: Unknown; however, no loss of cellular calls are expected.
- Wireline 9-1-1 Calls Impacted: None
- Cause of Outage: Fiber Hut / Light Span Outage (A fiber hut is a small building that many telephone connections pass through before they get to the Central Office)
  - AT&T has a Digital Technician at scene.
  - The technician requires the Digital Networking Group to make the needed repairs.
    - AT&T is at the 2<sup>nd</sup> level escalation now to the Digital Work Group.
  - AT&T continues to repair the problem with the Pair Grain Light Span outside of CHP Inland.
- CHP Inland will remain in alternate answer until the repairs are made.
  - There is a concern that some 9-1-1 calls could be lost on the out of service Pair Gain if CHP Inland takes calls before the repairs are completed.
- Estimated time of restoral: Unknown

#### Service Interruptions:

- None reported.

# WEATHER OF CONCERN

## Weather of Concern

- Widespread windy conditions will result in high fire danger across most of Southeast California today, 06/17/18. Gusts will increase to 30-40 MPH during the afternoon hours.

## **Weather Advisories, Watches, and Warnings currently active in California:**

## **Active Weather Warnings, Watches and Advisories by County:**

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

\*\*\* Showers and Thunderstorms Today, Isolated on Monday \*\*\*

Low pressure over the region will begin moving east today, reaching far NE CA late in the day. Temperatures will be 7-12 degrees below normal and RH will remain fairly high today. Wind gusts will reach 20-30 mph this afternoon, out of the SW-W through the Bay Area and Delta across the west side of the Sierra and out of the NW-N over the higher terrain. Widespread showers and isolated thunderstorms are expected over the Cascade and Sierra ranges today, with a chance of showers and isolated thunderstorms into the northern Sacramento Valley and in the coastal mountains north of Clear Lake.

On Monday the low will reach southern Idaho and temperatures throughout the region will rebound to near normal. Relative humidity (RH) will still be fairly high and SW-NW gusts will reach 25-35 mph in the afternoon in coastal areas and through the Delta, and over the higher terrain. More showers and thunderstorms are expected, mainly in our far NE corner.

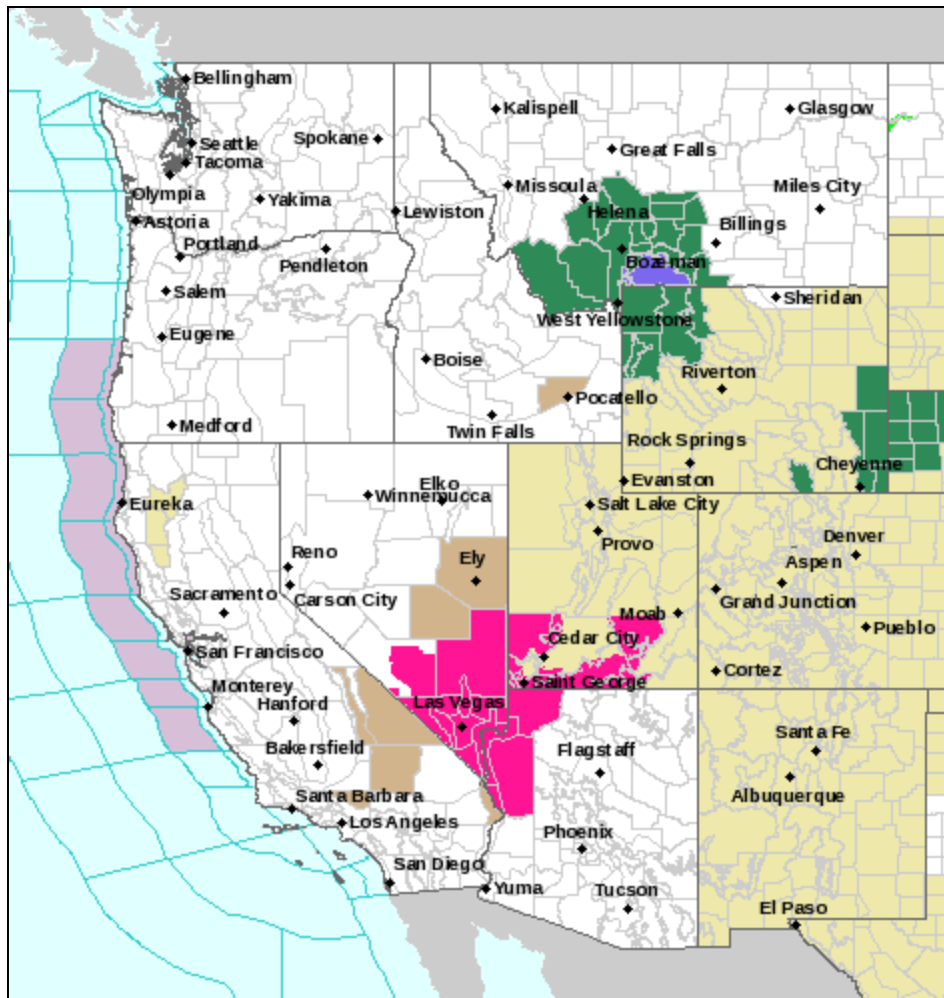

A high pressure ridge will move overhead Tuesday and Wednesday and boost temperatures up to 10 degrees above normal with light winds and low RH. Warm and dry conditions will continue Thursday as another trough begins to impact the coast. The trough will move overhead Friday and bring cooler and more humid conditions to all areas, but with gusty S-W winds.

## **SOUTHERN CALIFORNIA**

An area of low pressure currently over Northern California will move into Northern Nevada today maintaining southwest to west winds of 20 to 40 mph with gusts 60 mph across the desert passes through this evening. The marine layer is very deep and it is bringing areas of drizzle from the coastal mountain slopes westward this morning. Temperatures will be 10 to 20 degrees below normal away from the coastal areas today, with upper 50s and 60s across the mountains and 70s to low 80s in the valleys. Significant warming and drying will occur Monday through Thursday as high pressure approaches from the southwest and eventually moves overhead. Temperatures will be well above normal by Tuesday and the warmer valley locations will reach 100 degrees by Wednesday. Minimum humidity will drop into the single digits and teens away from the coastal areas starting Wednesday. There will be little change in the hot and very dry conditions Friday through next weekend as high pressure remains in control. Northerly winds of 15 to 25 mph with gusts to 40 mph will surface across much of Santa Barbara County and the Grapevine Monday and Tuesday nights.

GOVERNOR'S OFFICE  
OF EMERGENCY SERVICES

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2018-LAW-47389 6-16-2018 at 1820 hours**, the USCG received a call of a boater in distress at 38° 49' 092"N -121° 05' 752" W. These coordinates return to the north shore of Folsom Lake on the Placer County side. LDO called Placer County Sheriff's Office and determined California State Parks patrols the lake. State Parks advised they had already spoken to the boater who had lost power and were drifting into a rocky area. State Parks advised the boater was able to self-rescue with no further assistance was needed. **Mission Closed.**
- **2018-LAW-47377, 06/16/18, 0608 hours**: The International Emergency Response Coordination Center (IERCC) reported an InReach activation at 35 18 34.7 N 118 16 6.8 W. These coordinates return to the Pacific Coast Trail (PCT) in Kern County. The Registered Owner (R/O) of the device came across a 32 year old victim suffering from possible food poisoning and activated the device on their behalf. Kern County Sheriff's Office (SO) was notified of the activation and is evaluating their response. **Update: 06/16/18, 1045 hours: The victim was located by Kern County SAR and taken to an ambulance then taken to a local area hospital. Mission Closed.**
- **2018-LAW-47367, 06/15/18, 2250 hours**: Pacifica Fire Department in San Mateo County requested a United States Coast Guard (USCG) Helicopter with hoist capabilities to assist with three stranded subjects on the cliffs in Pacifica. USCG accepted the mission. **Update: 06/16/18, 0330 hours**: USCG was on standby due to weather and terrain issues while they attempted to rescue the subjects by other means. **Update: 06/16/18, 1113 hours: The victims were rescued off the cliff with the assistance of the CHP Air Unit; there were no reports of injuries. Mission Closed.**
- **2018-LAW-47335, 06/15/18, 0930 hours**: Tulare County SO requested a helicopter with Hoist capabilities to support a search of a 72 year old hiker that separated from their hiking party on 06/14/18. CHP has provided air support for the first 48 hours. The California National Guard (CNG) accepted the mission and will provide assistance on 06/15/18 and 6/16/18. **Update: The California National Guard was contacted and deployed a search / hoist helicopter. The search continued in the afternoon without success. Tulare County extended the request for the helicopter for a new operational period on 06/16/18. The California National Guard agreed to support the additional day. Update: 06/16/18, 1300 hours: The Missing Person was located by the helicopter and was airlifted to an area hospital to be medically cleared. Mission Closed.**
- **2018-LAW-47170, 06/07/18, 1325 hours**: The Mariposa County SO is requesting 6-8 Human Remains Detection (HRD) K9 Teams to assist in a search for a missing person who was swept away during a March 2018 storm. They have conducted one search thus far with negative results. The search area is approximately 1 mile long in addition to a debris pile, approximately 5 acres in size. The search will occur on 06/16/18 at 0600 hours and be completed by early afternoon. The Cal OES Law Enforcement Branch (LEB) is coordinating the search dog teams response. **Update: 06/16/18, 1600 hours: The search was concluded with a positive detection of human remains in the area of creek. Mission Closed.**

# Cal OES MISSION TASKING

## Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
